

ILC's Support Services for: Material Safety Data Sheet (MSDS) Inventory Spreadsheet

ILC can help you input your MSDS information into the spreadsheet*.
There are 2 Levels of support for you to choose from.

Level 2

Level 1

Location	Manufacturer (on MSDS)	Product Name (on MSDS)	Product ID No. (on MSDS)	Revised/ Issued Date	Date of this Entry	HMIS		NFPA	
						H	F	R	Other

These columns are client-specific & ILC can not complete these.

EHS Form	Combustible Dust	REACH (SVHC)	RoHS	Recommended PPE (optional)	Comments
-------------	---------------------	-----------------	------	-------------------------------	----------

Level 1 Includes:

- ILC Populates Column Titles: Manufacturer, Product Name, Product ID, Revision Date, & Entry Date;
- Filling out HMIS & NFPA Columns, based on what MSDS has listed;
- Create hyperlink in Product Name cell to electronic copy of the MSDS.

Level 2 Includes:

- All of Level 1;
- Use client information to complete the Location Column;
- Re-name each individual MSDS file to correspond with the Product Name.

Location	Manufacturer (on MSDS)	Product Name (on MSDS)	Product ID No. (on MSDS)	Revised/ Issued Date	Date of this Entry	HMIS H	NFPA F	EHS Form	Combustible Dust	REACH (SVHC)	RoHS	Recommended PPE (optional)	Comments
Example	3M	Super Glue Gel	21-8716-5	04/06/09	04/30/10	2	2	1	yes	no	no	yes	Avoid eyes & skin used for sticking things together

* ILC will fill in only the information that is found on the MSDS itself. ILC will not enter information that is not found on the MSDS; cell will be left blank.
